1975 Regional Weekend Meets To Draw More Than 1,000 Brothers

This February March and April the 1975 Regional Leadership Weekends (formerly Regional Academies) focus on building an outstanding chapter. Locations and dates of the eight Regionals are:

February 14-16, MID-ATLANTIC. Hyatt Regency Hotel, Knoxville, Tennessee; University of Tennessee, Host — Tennessee Alpha

February 26-March 2, NORTHEAST. Cornell University, Ithaca, New York, Host — New York Beta

February 28-March 2, SOUTH-MIDWEST. Ramada Inn, Norman, Oklahoma; University of Oklahoma, Host — Oklahoma Beta

March 7-9, DESERT/SOUTHERN CALIFORNIA. Howard Johnson's Motor Lodge, Tempe, Arizona; Arizona State University, Host — Arizona Alpha

March 7-9, SOUTHEAST. All-American Inn, Auburn, Alabama; Auburn University, Host — Alabama Alpha

March 21-23, CENTRAL. Holiday Inn, Dekalb, Illinois; Northern Illinois University, Host & Illinois Epsilon

April 4-6, MIDEAST. Houston Woods Lodge, Oxford, Ohio; Miami University, Host — Ohio Eta

April 4-6, WEST. Ramada Inn, Salt Lake City, Utah; University of Utah, Host — Utah Beta

The Regionals are expected to attract more than 1,000 undergraduate and alumni brothers and Golden Hearts.

The program includes a preview of the 34th Grand Chapter to be held August 22-25 at the St. Louis Marriott Hotel. Highlights of outstanding undergraduate accomplishments in each region, small group discussions on ways to strengthen all areas of chapter operations, a Ritual presentation, individual chapter consultations, and an awards banquet on each Saturday night.

This year's Regionals are structured so that every undergraduate and

Spirits were high at the Regional Leadership Weekend at the University of Oklahoma at Norman March 1-2. More than 200 Sig Eps from several states attended the highly successful meeting. In this photo University of Texas brothers visit with Oklahoma U. members in a song fest.

alumnus in attendance will come away knowing how to build (or maintain) a successful Sigma Phi Epsilon chapter," said Donald E. Kindred, member of the Fraternity's Leadership Education and Development Committee. "It is especially important that the Regionals reach more alumni this year than ever before because alumni support has historically proven to be a major factor in chapter stability and improvement," he said.

This is the fourth year that leadership workshops have been held on a regional instead of a national basis. The regional concept has proven extremely successful in reaching a larger group of alumni and undergraduates for leadership training," said Guy V. Givan, District Governor for Missouri.

"The Headquarters Management Staff is constantly searching for more effective ways to communicate with

undergraduates and alumni," said Michael J. Duggan, undergraduate National Director. They have a phrase Sigma Phi Epsilon Headquarters bringing brothers together that clearly states a very important reason for being a part of a national fraternity: "Duggan said.

Chapter Awards

The 1975 program has changed, however in that the Saturday night banquet will feature the presentation of awards for outstanding chapter achievements during the 1973-74 year. To be awarded are Excelsior Bowls to chapters showing significant operational improvements, Scholarship Cups to chapters who rank first in grade point average among all fraternities on their campuses and several manpower awards.

Fraternities Gain Title IX Exemption

Legislation exempting social fraternities and sororities from enforcement of Title IX of the 1972 Higher Education Amendments was signed into law December 1 by President Gerald R. Ford. The legislation introduced by Indiana Senator Birch Bayh exempts from Title IX all social fraternities and sororities, as well as some other organizations which maintain federal tax exemptions under the Internal Revenue Code of 1954.

On June 20, 1974, the Department of Health, Education and Welfare made public its guidelines for the enforcement of Title IX which said that any institution of higher education which receives federal funds that includes most colleges and universities may not discriminate on the basis of sex. According to the guidelines the sex discrimination clause applies to any campus group or organization which was supported in any way by the college or university. Support was the key consideration since most social fraternities and sorority chapters use university facilities for meetings and other functions in some cases

fraternities and sororities live in housing which is provided by or leased from the institutions.

When the regulations were released in June H.E.W. solicited response from the public. The second largest number of objections received by H.E.W. came from fraternities and sororities, their membership the National Interfraternity Conference and National Panhellenic Conference and many colleges and universities contending that Title IX regulations should not include fraternities and sororities. Last October Sigma Phi Epsilon President William A. MacDonough responded with a letter to H.E.W. Secretary Casper Weinberger saying Sigma Phi Epsilon Fraternity strongly objects to and requests an exemption from the proposed regulations for the interpretation and enforcement of Title IX of the Higher Education Amendments and listed as his reasons:

1. That the Higher Education Act of 1965 Section 804(b), which says nothing in this Act or in any other Act authorizes any federal department to exercise any direction supervision or

control over the membership practices or internal operations of any fraternal organization, fraternity, sorority, or private club or other organization which is chartered by private sources and a part of a university if not amended by the Higher Education Act of 1972.

2. The term "significant involvement," meaning the degree of university support received by an organization is a major point in the proposed regulation. The small number of instances in which the degree of support to fraternities is significant does not justify federal intervention.

3. The authors of this legislation have made it clear that they did not intend fraternities to fall within the scope of these regulations.

4. The regulations conflict in dealing with fraternal organizations, on one hand saying they cannot discriminate against any person and on the other hand saying that housing may be separate but equal.

In conclusion MacDonough said, it is our belief that the proposed guidelines promulgated on June 20, 1974 are unlawful and fundamentally unworkable.

News Clips

Enrollments Up . . . A study of 1,456 four-year colleges and universities, released by Dr. Garland G. Parker, Cincinnati '37, shows a 3 percent increase for 1974-75 enrollment. Parker is vice provost for admissions and records at Cincinnati. The report says fall quarter enrollment totaled 6,647,567. The number of full-time students grew by 1.9 percent to 47 million at the reporting institutions. Part-time students increased by 7.8 percent to almost two million. After three years of declining the number of registered freshmen increased 4.6 percent. Women's ranks increased by six percent at the reporting institutions.

Four New Chapters Born . . . Sigma Phi Epsilon continues its 15th Anniversary growth with the formal installation of four new chapters last fall, bringing the total to 196 chapters and nine colonies. Loras College (Iowa Eta), Fairleigh Dickinson University (New Jersey Delta), University of Arkansas at Little Rock (Arkansas Delta), and San Angelo State University (Texas Omicron). (See page 5)

All-Sig Ep Football Team . . . The 1974-75 All-Sigma Phi Epsilon Intercollegiate Football Team features Sig Ep star players from schools across the country, including an offensive and defensive player of the year. (See page 6)

We believe they will cause considerable problems or damage to fraternity and sorority systems. For almost 200 years these Greek systems have provided separate but equal opportunities to students attending our institutions of higher education. The proposed regulations which would allow integrated membership with separate housing would have no effect in practice except to destroy the individuality of the fraternity and sorority systems which have been extremely successful in making a lasting contribution to the educational society within which they exist."

Dr. Edward H. Hammond, (Emporia Kansas State College 66) vice president for student affairs at Seton Hall University was instrumental in setting Sigma Phi Epsilon's legal course in presenting its case to the Office of Civil Rights following its development. Of the exemption Hammond said, "This is important because it takes out of the jurisdiction of the Office of Civil Rights the decision of what kinds of activities constitute sufficient 'state action' for those activities. The jurisdiction of Title IX will now clearly and more appropriately rest on the tax status of such organizations."

Golden Heart Initiation

Golden Hearts are taking a more and more active part in Sig Ep chapters around the nation. This group from the Morningside College (Iowa Epsilon) chapter had just concluded their initiation when this photo was made.

'Buzz' Ridl Turns Pitt Into Basketball Power

By John Robson
Editor Emeritus

As a new basketball season begins, college fans in the East are asking: "Will the Pitt Panthers be able to keep it up?"

Last season Pitt surprised — no, stunned — the nation's basketball-happy public by winning its first national championship in the 187-year-old school's basketball history. The Panthers won 22 games and lost one. Seven years before that the record read more like 22 defeats and one victory.

The man who turned it around was head basketball coach and Sig Ep board member Charles G. "Buzz" Ridl, Westminster '42.

Eastern sports writers and broadcasters called the Panthers 1973-74 team "Miracle on Allegheny Street." Winning game after game, the Panthers, during the season ranked as high as seventh in the nation, invited to the Eastern regionals of the NCAA tournament. Pitt defeated St. Joseph's 54-42 in the first-round game, then defeated Penn State 70-65 in the second-round game, but lost to the national champion North Carolina State team 100-72 in the finals. Coach Ridl was named District II Coach of the Year and was third in the national balloting for national Coach of the Year by the Coaches' Association.

Now, in the new 1974-75 season, the Panthers are definitely in the national basketball spotlight. But it has not all been roses to get there and it will not all be roses to stay there.

When Ridl was hired as Pitt's head basketball coach on March, 1968, the Panther cage fortunes were at an all-time low. Pitt had suffered through four consecutive losing years with a horrible record.

The call went out to Ridl, a coach who had posted a 100% winning record at the alma mater that was fantastic. During his 12-year career there, Ridl's team won 216 games and lost only 90 for a winning percentage of .704. His teams captured seven West Penn Conference championships in nine years.

He did great things in Florida, six appearances in the NAIA tournament, reaching the finals in 1960 and 1962 and the semifinals in 1961 and 1966. His 1962 squad was voted by both wire services as the best small college team in the nation, and subsequently was named NAIA Coach of the Year.

With that kind of background, it was little wonder that Pitt fans were expectant when Ridl became Pitt's first yell. Such was not to be the case. Installing a new style of play and hampered by a glaring lack of talent, Ridl suffered through a 4-20 record in his first season as in-charge of the Panthers. It was a new and frustrating experience for a coach who likes to make things go in 13 years, fast! (Continued)

But Ridl and his two assistants gritted their teeth and worked hard. And they worked harder. They knew what had to be done. It would take hard recruiting of new players. It would require a complete change of image. It would take

strong backing on the part of the University administration. And it would take some luck. Of course, it would also take coaching — solid, disciplined, winning coaching.

Buzz Ridl

Ridl made a strong pitch to area high school stars to play their college ball at Pitt and gradually the picture began to brighten. One year later, the team was improving and the image began to change. Coach Ridl's disciplined style of play began to pay dividends despite a vastly upgraded schedule that he himself arranged. After that first year, the Panthers compiled a record of 14-10, with a shade over 50%. From that point on the record improved rapidly.

A native of Irwin Pa., Charles Ridl served four years in the Army before returning to his alma mater as an assistant coach from 1949-55. After that he taught and coached, amassing an outstanding record and was elected to the Helm's Hall of Fame for NAIA basketball coaches. He holds a master's degree in education from Pitt and his wife is a mother of two children. Ridl, who works as a coach, consultant at Robert Morris College and Jack who teaches English in Michigan.

Buzz Ridl doesn't mind being in the limeight or even that Sports Illustrated last season called him a "grandfather of basketball." Ridl is 54, which is about a half-coach at his prime. The answer to the fans' question: Will the Panthers be able to keep it up? — Buzz Ridl's answer is: You bet!

It's Super Bowl IX for Sig Ep's Bill Brown

As Bill Brown, Illinois 61 ran on the field January 12 with the Minnesota Vikings in Super Bowl IX, N.B.C. announcer Curt Gowdy asked him: "The oldest man in professional football, running kickoffs? To watch Brown though, you would hardly think of him as an old man. But if you review the statistics, he surely is a veteran."

Although the Vikings lost the game, Brown, in his 17th year as a pro, had a better record than his first year, which was 1962. In fact, he has more yards, 2,100, than he had in his first year, 1,900.

Brown, a 6-foot-5, 200-pound, 38-year-old, is the official referee in football games in the state of Illinois.

From the Grand President

by William A. MacDonough

beginning of a new year. Almost all of our chapters will have elected new leadership by March, 1975, and most of these new leaders will be participating in our Regional Leadership Development (which you have read about on page one).

To our new chapter officers, I welcome you to the positions to which you have been elected. Your brothers have shown great confidence in you, and this demands your responsible leadership and cooperation with all brothers and pledges, as well as your fellow officers.

The continued success of all of our chapters depends on high performance in each of the following areas:

1. Aggressive rush/recruitment of carefully selected and qualified pledges.

2. Well-planned brotherhood development and big brother programs.

3. Careful financial planning and living within a realistic chapter budget.

Sincere expressions of brotherhood.

However, while most chapters rightfully place major emphasis on recruiting freshmen (first year

pledges), I have noticed an increased activity by many chapters in upper class rushing. This recognized the fact that many freshmen are delaying entry and fraternal involvement of contacts when they enter college. As they mature, these men become successful in academics and campus affairs, make fraternity friends, and realize the values of fraternity membership.

One chapter that I know of recently started a class that included six sophomore, seven juniors, and one senior. Their honors and activities included Blue Key (national senior honorary), student government, swimming team, and various honoraries.

There is hardly a single campus in this country that does not have many men who are good prospects for Sigma Phi Epsilon, who just haven't been asked to join. Many of our chapters could benefit greatly by a week-long (or longer) campaign to look around in each of your classes, pick out a good prospect and invite him to the house to visit and get acquainted. Try it — I know you will like the results.

Fleming Voted Arizona Treasurer; Credits His Chapter Involvement

"Guys in the chapters should take

on committee chairmanships and they'll take down mental notes and learn how to handle those jobs," says Brother Barrett (Bart) S. Fleming, Arizona 66 elected Arizona State Treasurer last November. The key Fleming says is nothing new. It's to become involved early!

Fleming, reflecting on his tenure as a member of Arizona Beta and a familiar face in University of Arizona politics, is quick to point out that he was never chapter president, but put in his service as scholarship chairman and treasurer. It seemed to me the work was there. Sigma Phi Epsilon was kind of a microcosm for political training through constantly interacting with the brothers and pledges. Fleming said he knew more about government than anyone else in the chapter.

After graduating, Bart was vice president of Arizona Beta's alumni board for a short time, until resigning.

'Old Mizzou'—A Great Book

Old Missouri, A Story of Missouri Football, by Bob Broeg. The Strode Publishers, Huntsville, Ala. \$7.95

Here is a must for any graduate or former student of the University of Missouri or anyone that has followed the Tiger's football fortunes over the years.

This football history tells the story of the Tiger's progress from its beginning in 1893 to the talent-leaden season of 1974. It is literally packed with anecdotes, interviews, historical photos and captions, and statistics.

Bob Broeg, Missouri Alpha '37, sports editor of the St. Louis Post Dispatch observed firsthand most

of the action on the field.

It's all here, the inside story of the

hirings and firings, the greats and

not so greats, the growing pains and

the grins, the big games and the

the letdowns. It's a great book

packed with records and scores and

other statistics, a complete index

of every footballer who ever

lettered for Mizzou.

In 1971, he was named Chief Deputy Treasurer for the State, after working as an account executive with the First National Company. In 1973 when Arizona Trust Ernest Garfield was appointed to the Arizona Corporation Commission, Fleming was appointed by Governor Jack Williams to fill his treasurer's post. I had ample time to help him get up to speed before having to be concerned with the campaign. Fleming won the election handily.

In 1973-74 his office was responsible for increasing earnings from investments of state tax revenues by more than \$10 million. He got to automate the state's cash management analysis procedures for efficient investment information.

In June 1974 Fleming was chosen as one of 20 political office holders — 10 Democrats and 10 Republicans — from the U.S. to visit the Soviet Union on a three-week Department of State exchange trip to study the Russian economy. He said the trip was important because a major problem in the country where price has no bearing on the market. "In most cases," he said, "goods are used like cookies — rewards for service — by party leaders." Fleming got together with other Americans such as Johnny Roland, Roger Wehrly and John Moseley.

It's all here, the inside story of the hirings and firings, the greats and not so greats, the growing pains and the grins, the big games and the letdowns. It's a great book packed with records and scores and other statistics, a complete index of every footballer who ever lettered for Mizzou.

On the campaign, Bart says: "It was sort of a fraternity affair much like running for student body office. The University of Arizona Specialties, Inc., a firm of Flemings' county campaign coordinators were Arizona Beta brothers in Phoenix A Perry Botte, 57 Yuma County Wayne C. Benesch 64, Pima County Michael R. Farley, 66, Pinal County Thomas E. Williamson, 66, Finney County Frank Rausher, 65, and Campagne Secretary William G. Ridenour 66. Involvement seems to be Fleming's avocation though. He is vice chairman and Northern Arizona regional campaign Director for the March of Dimes, a director of the Midtown Lions, the Melvin Jones Center for the Blind, board of directors, the Business Advisory Board of Phoenix General Hospital, and a member of the Phoenix Jaycees, Military Police Association, Paradise Valley Jaycees, Military Police Association, Arizona National Guard Association, the Phoenix Society of Financial Analysts.

August 22-25

St. Louis Marriott Hotel Site for 75th Anniversary Grand Chapter

Registration Details

Room price: Single \$24 Triple \$27
Double \$25 Quad \$32

Standard Grand Chapter registration fee:

\$30 (before June 22, 1975)

\$35 (after June 22)

(The Saturday tour and luncheon for ladies is an additional \$6.)

75th Anniversary Medallion Special

With your Grand Chapter registration, you may take part in the Sigma Phi Epsilon Foundation's "75 in '75" program and receive the "75th Anniversary medallion" — \$75 registration fee which includes:

The Friday picnic, and Saturday and Sunday banquets — A \$45 tax deductible contribution to the Educational Foundation will be paid toward your pledge of \$75, the balance to be paid by November 1, 1976.

The beautiful, 75th Anniversary medallion.

Undergraduates—\$45 registration fee, which includes:

The Friday picnic, and Saturday and Sunday banquets — A \$45 tax deductible contribution to the Educational Foundation toward your pledge of \$75, the balance to be paid over three years (\$20 a year).

The beautiful 75th Anniversary medallion.

34th Grand Chapter to Kick-Off Anniversary

Sigma Phi Epsilon Fraternity was born at the beginning of the 20th century, in 1901. On November 1, 1976 we will be 75 years old. The Fraternity has come a long way since Brothers Phillips, Jenkins, McCaul, and the others set out in their quest to form a new brotherhood.

At the 75th Anniversary Grand Chapter in St. Louis, this August 22-25, brothers from across the country will be able to take part in the kickoff celebration of Sigma Phi Epsilon's year-long 75th Anniversary which culminates on November 1, Founders Day, 1976. The 75th Anniversary celebration will coincide with the American Revolution Bicentennial and the 200th anniversary of the first college fraternity, Phi Beta Kappa, founded in 1776 at the College of William and Mary in Virginia.

Grand President, William A. MacDonough, elaborated on the program for the JOURNAL. This upcoming anniversary marks a special milestone in our brother-

hood three-quarters of a century since its founding," he said. "But in looking back and celebrating the past, we must at the same time look ahead to 2001, the completion of our next quarter century, a look toward a Century of Brotherhood, 1901-2001."

Celebration activities highlight much of the weekend's schedule, featuring special multi-media shows highlighting Sig Ep's past 75 years, an old-fashioned picnic, Saturday evening's 75th Anniversary Banquet, and Sunday luncheon's "Toward a Century of Brotherhood" Banquet.

The celebration does not stop there. However, A commemorative magazine issue of the JOURNAL will be dedicated to the Anniversary, and on display will be a special Anniversary archive.

"These are but a small sampling of the activities planned for the 75th Anniversary kickoff in St. Louis," said Dr. Edwin M. Kaiser, Chairman of the Leadership Education and Development (LEAD) Committee. The LEAD Committee serves as a special advisory group for the Fraternity and look part in the planning of the 75th Anniversary Grand Chapter.

"Our emphasis between now and May 1, 1975 is to get brothers, both undergraduate and alumni, and their wives to St. Louis," said MacDonough. "We feel confident that with the help of the St. Louis Alumni Chapter and the host Missouri undergraduate chapters this is sure to be the finest most memorable Grand Chapter meeting to date. The entire National Board of Directors—John W. Hartman, Frank J. Ruck, Jr., Jack D. Wheeler, Barry P. Palmer, Carl O. Petersen, Larry Campbell, Bruce H. Hartman, Michael J. Duggan, and William M. Dodd—invites you to join in the festivities."

Set aside the dates—August 22-25, 1976—and plan to attend Sigma Phi Epsilon's 75th Anniversary Grand Chapter. See registration information on this page. See your brothers in St. Louis!

Biddle Appointed 1975 Conclave Director

J. Tim Biddle, Colorado State 73, has been appointed Director of the 75th Anniversary Grand Chapter Conclave to be held August 22-25, 1975 at the St. Louis, Missouri Marriott Hotel.

In announcing the appointment this month, Executive Vice President Charles N. White Jr. said Biddle will be responsible for planning promotion and programming of the Fraternity's 34th Conclave meeting.

The 75th Anniversary Grand Chapter will be special because it

not only involves the usual legislation and Conclave programs but it will also be a kickoff celebration of Sig Ep's first three-quarters of a century as a national fraternity and a dedication to the next 25 years," Biddle said.

As Regional Director 1973-74 Biddle consulted undergraduate chapters in the Northwest and organized a conclave conference. In 1974 he has been Manpower Development Director responsible for the Fraternity's expansion and manpower support programs.

L.E.A.D. Committee Sets the Program for 75th Anniversary Grand Chapter

Sigma Phi Epsilon has several special committees made up of volunteer alumni brothers who donate their time and effort guiding the fraternity in areas such as housing, policy education, and planning.

Many of the plans and activities for the 75th Anniversary Grand Chapter meeting this August 22-25 in St. Louis were formulated by one such group. The six members of the Leadership Education and Development (L.E.A.D.) Committee—Edwin M. Kaiser, Youngstown University, 60; Robert C. Lynch, Miami-Ohio, 67; Charles J. Hartmane, Washington University, 59; Rev. Richard L. Shimpky, Colorado 62; Donald E. Kindle, Cincinnati, 55; and W. Stewart Minton,

Or Edwin M. Kaiser, professor of Chemistry at the University of Missouri at Columbia, was recently presented the annual University of Missouri Faculty-Alumni Award in ceremonies at the University.

Grand Chapter Schedule

Friday (August 22):

Morning and afternoon—arrive and register at the St. Louis Marriott Hotel.

2 p.m.—Opening session, Sigma Phi Epsilon 34th Grand Chapter Conclave

6 p.m.—Old-fashioned picnic, St. Louis style

Saturday (August 23):

9 a.m.—2nd legislative session

9 a.m.—Ladies tour of St. Louis

10 a.m.—Sig Ep's "Focus: Leadership"

2 p.m.—"Focus: Leadership"
National Alumni Commission's "Focus: Alumni"

3 p.m.—3rd legislative session

3 p.m.—Ladies activities

7 p.m.—75th Anniversary Banquet

Sunday (August 24):

9 a.m.—4th legislative session

10 a.m.—"Focus: Leadership"

"Focus: Alumni"

10 a.m.—Ladies activities

2 p.m.—5th legislative session

7 p.m.—Banquet: "Toward A Century Of Brotherhood"

Monday (August 25):

Check-out and sight-seeing.

By National Board Directors

Three Appointed District Governor

Larry Dust

Harry Kraatz

Bruce Hodges

District Governor three chapters in Indiana, one of which is Larry R. Dust's home chapter, Indiana University at Bloomington (Indiana Beta) Brother Dust, 28, was named Governor of District 11 by the National Board of Directors in December.

Larry sees his new position as that of a coordinator. "Within this District, some chapters are obviously stronger than others. The District system gives us a great opportunity to create an interaction among chapters. We can mutually benefit all of them." Larry says, "District-wide functions best provide District identity and good idea exchanges between all chapters."

Larry's undergraduate chapter background is diverse. He was never Outstanding Pledge, served as pledge editor, was chairman of the chairman, and was chapter president. As an alumnus, he has been secretary, treasurer, and president of the Indiana Beta Educational Foundation, Inc.

Brother Dust is a partner in Lime In Your Mouth Company in Indianapolis. His wife, Linda, is a member of Delta Gamma sorority from Indiana University. The Dusts live in Indianapolis.

A midwesterner, Harry R. Kraatz has taken to the Bay Area of Northern California enthusiastically. Brother Kraatz, 28, was appointed in December as Governor of District 24, serving three chapters and one colony in Northern California.

Kraatz holds a position which has been vacant for sometime. I hope to help re-establish a strong relationship between the chapters in our District," Kraatz said. "We may be small in numbers up here, but our quality potential is enormous. I'm excited to begin working with the brothers," he added.

Active on campus as an undergraduate, Brother Kraatz was both interfraternity Council and senior class president at Southwest Missouri State. He was vice president of his chapter.

Harry and Marjie Kraatz live in the Rafaela Club, where he is vice president of operations for Swensen's Inc., an ice cream distributor.

Seit Lehr City, Okla., is Bruce R. Hodges' home. Serving District 22, Utah and Colorado, Bruce Hodges feels he is accessible to the six chapters in the District. He was appointed District Governor in January by the National Board of Directors.

Most important is to make myself available, at any time, to act immediately on any problem or request that a local chapter may have," he said.

Bruce, 26, was initiated by the Indians chapter in 1968, and served as chapter president with San Diego State (California Delta), chapter after returning in his junior year, following a stint with the Marines.

"Fraternities to me are truly a once in a lifetime experience (fraternity life), or it can be, a tremendous experience in your academic life," Bruce commented.

As an undergraduate, Brother Hodges was social chairman, alumni relations coordinator, and vice president for California Delta. Most recently he has been chapter counselor for the University of Utah (Utah Beta) chapter. He is assistant center manager at Fashion Place Mall in Murray, Utah.

Career Planning..It's Not Too Early!

By Jerry L. Richardson

You should be concerned about the job market, whether you are an undergraduate or a senior. Now is the time to start thinking seriously for the search for a position. Some research can tell you about the job market, but further research can help you determine what you can do personally to make job hunting easier when the time comes.

The underclassman is not in a position to shrug his shoulders because graduation is a few years away. He is in an ideal spot — knowing what the situation is and yet having time to prepare himself for the job market. An underclassman you should spend some time researching what is available on your campus that will help make you more marketable when you become a senior. Some areas for consideration are discussed below.

Internships

Many universities now offer special programs that can be taken in an internship. Internships in education as well as in business these "internships" are valuable assets for a candidate. Not only do they provide you with a tremendous learning experience, they also mean to the employer that you are willing to get involved. To go the extra step in becoming the best you can be in a given field.

The Senior
Brothers can also prepare themselves by selecting related summer employment. Some may need to find the highest paying job possible in order to afford the next year at school. If this is the case,

After four years of hard work (and, good times!) the man who finds the real world just ahead hopefully, you will have many of the above-mentioned traits to be able to offer to a prospective employer. In addition to being a student, you must now also become a salesman.

About the author:
Jerry Richardson is the assistant director of the Career Planning and Placement Office at Bowling Green State University (recently rated the best teacher placement office in the nation based on a survey of more than 5,000 employers). He is the director of teacher placement specifically, working with all elementary and secondary candidates. Jerry is a past president of the Ohio Chapter (Ohio Kappa) served on the Alumnae Board and is Chapter Advisor for Ohio Kappa.

The Sigma Phi Epsilon JOURNAL is an educational publication of Sigma Phi Epsilon Fraternity, Inc., 1000 South Highland Avenue, Suite 200, Hampton Roads, Richmond, Virginia 23215. Second class postage is paid at Hampton Roads and additional mailing offices. Lifetime subscriptions in the U.S. and possessions are \$14.00; single copies are \$1.00. Subscriptions in Canada and the American Association of Colleges in the U.S. are \$14.00. Subscriptions in the U.K. and elsewhere are \$18.00. Chapter Counselors Key To Top Chapter Operation

The Chapter Counselor, an official of the Grand Chapter, is responsible through the District Governor to the National Board of Directors for overall guidance of the chapter in its service. Serving as a chapter counselor is no easy task and requires men to be sensitive to interpersonal relationships and to utilize his own personality to motivate the members and the leaders of a chapter, and serve for a full and worthwhile experience.

Specifically, the counselor is a motivator for rush, an educator of new officers, a resource for chapter

programs, the underwriter of continuity, a monitor of attitudes, a link with alumni, and most important, available to the chapter when needed. Sigma Phi Epsilon's greatest asset is its alumni and the chapter counselor is the backbone of the fraternity's system of alumni management.

The following is a listing of chapter counselors from across the United States. Sigma Phi Epsilon is grateful for the work these brothers are doing.

Chapter Counselors

Chapter	Name
Auburn	George J. Cotter

Sigma Phi Epsilon Gains 4 Chapters As Fraternity Continues to Expand

Loras College—Iowa Eta

On November 9, 1974, Iowa Eta colony members at Loras College in Dubuque, Iowa received their charter as a chapter of Sigma Phi Epsilon during installation ceremonies and a banquet at the Julian Motor Inn. The installation marks the first nationally recognized social fraternity on the Loras College campus.

The weekend was a busy one for the soon-to-be brothers of Iowa Eta who had to arrange details for the initiation and banquet. Regional Director Keith Ruffner arrived Thursday to assist with installation preparations. On Friday night the colony threw a welcoming party for brothers from the Iowa State and Morningside chapters, who served as initiation teams on Saturday morning. Other special guests for the weekend included brothers from the Southern Illinois University at Edwardsville chapter, John W. Hartman, national director of operations, and Gary E. Griffen, director of undergraduate operations at Fraternity headquarters in Richmond. In addition, the banquet was highlighted by speakers from the Loras administration. Brother Hartman gave the keynote address and presented the charter to the new Iowa Eta chapter. A spirited dance followed at which the new flag and charter were proudly displayed. Topping off the weekend festivities was a Sunday morning brunch for all who took part.

Iowa Eta's Beginning

In January, 1974, Staff Representative Carlos Quintero met with Scott and Wade Keener, both brothers who transferred to Loras from Parsons College (now closed). After several days of preliminary rush, the new colony consisted of seven men. With the completion of the fall semester, the Loras College brothers became recognized and quickly built a positive reputation, showing that Sigma Phi Epsilon was a fresh alternative to other campus fraternities. Within two weeks colony membership grew to 24.

John Harlman, national director, presents Loras College charter to Wade Keener, president and Father Charles Lang, dean of students

Special chapter activities prior to installation included rush smokers and sorority mixers. Brothers also assembled bicycles for mentally retarded children and conducted several fund-raising events. A scholarship board monitors the academic standing of the brothers Iowa Eta's housing consists of a dormitory wing, but they have plans for a chapter house within a few years.

Founded In 1839

Loras College, founded in 1839 as a Catholic seminary, is situated on 60 acres in the agricultural city of Dubuque, Iowa, some overlooking the Mississippi River. The college, with a full-time enrollment of 1,403 students, offers both an undergraduate and graduate curriculum in Arts and Sciences.

There are five other fraternities at Loras, claiming 14% of the campus men. All are local service fraternities.

Fairleigh Dickinson University
New Jersey Delta

The New Jersey Delta Chapter of Sigma Phi Epsilon Fairleigh Dickinson University was formally installed December 7, 1974 by Grand President William A. MacDonough. Twenty brothers of the local fraternity, Gamma Iota Alpha, were initiated earlier in the day in the Dreyfus College Building, and received the interpretation from the Grand President. Brothers from Stevens Tech (New Jersey Alpha) and Seton Hall (New Jersey Gamma) served as initiating teams for the weekend.

Sixty brothers, dates and parents attended the evening dinner-dance in celebration of New Jersey Delta's installation at the Chateau Roberto Restaurant in Florham Park. The dinner was preceded by a cocktail hour honoring guests from the Fairleigh Dickinson administration. Toastmaster for the evening was Chapter President Jeff M. McKee, Grand Priest and MacDonough in his keynote address, stressed the benefits and challenges facing the group as a national fraternity chapter.

District Governor H. John Guderirk presented the chapter flag. Also at the installation from Headquarters were associate director of undergraduate operations Michael B. Zuhl and John R. Swirotkowski, regional director. John Crimmond, president of the New Jersey alumni chapter and Martin Valero, chapter counselor, were also present.

Colony History

New Jersey Delta was born of Triad social club begun in 1966. The name Triad symbolized the unity among students from the community, the dormitories and off-campus as members of the club.

Triad became the Zeta chapter of Gamma Iota Alpha in 1969 and also the first fraternity on the Madison campus. Through the work of Staff Representative Michael B. Zuhl and brothers from the Seton Hall Chapter (New Jersey Gamma) and Stevens Tech (New Jersey Alpha) chapters, the members voted on March 10, 1974 to become a colony of Sigma Phi Epsilon.

University of Arkansas—Little Rock
Arkansas Delta

Your Fraternity has an opportunity for greatness which is not often presented to a newly organized chapter. With thoughts by National Director Carl O. Petersen, Arkansas Delta chapter of Sigma Phi Epsilon was installed at the University of Arkansas-Little Rock on December 4, 1974.

The weekend of the installation was a festive one indeed, with brothers from Arkansas State and the University of Arkansas serving as initiating teams to members of the new chapter.

At the installation banquet held at the Camelot Inn on Saturday evening, brothers, parents, and guests cheered as Brother Petersen presented the charter to Chapter President Robert Henson and Dean Henry Atkins.

Other special guests included Bill M. Dodd, National Board of Directors, Irwin Fevre, Regional Director, John H. Stanley, Jr., District Governor, Barbara Taegel, Dean of Women, Dr. Garth Hines, Faculty Advisor, A. Timothy Irby and Michael D. Taylor, Chapter Counselors.

An urban-oriented campus, the University of Arkansas at Little Rock has an enrollment of 5,400 students and 275 full-time faculty members. The school

was founded in 1927 as Little Rock Junior College. After becoming a four-year degree granting college in 1957, it merged in 1969 with the University of Arkansas. Located in wooded southwest Little Rock and bordered on the north by the Arkansas River, the university offers 60 degree programs in 28 academic departments. The university recognizes four other national fraternities — Pi Kappa Alpha, Sigma Alpha Epsilon, Sigma Nu, and Kappa Sigma.

History of the Chapter

In February, 1974, District Governor John Stanley met with several fraternity alumni in Little Rock and decided, along with two Sig Eps, Robert Price and Charles Ball who transferred to Little Rock from the University of Arkansas (Arkansas Alpha) chapter, to establish a Sigma Phi Epsilon colony.

Beginning with eight members, the colony surged ahead with rush and activities which included beginning a Golden Hearts organization of 20 girls. Among the projects prior to installation were a Five Nitro, "Mighty Quack" Dance, pitch in week, and sorority exchanges (like a champagne party for sorority officers). The colony was active in all intramural sports.

Angelo State University—Texas Omicron

Steve Nordhoff, district governor, installs officers of the Angelo State Chapter. From left, Charlie Hall, senior marshall; Louie Jones, corresponding secretary; Victor Arceneaux, v.p.; Terry Lewis, rec. sec.; Jack Nalepka, chaplain; ES Johnson, controller; David Lenehart, president.

By Louie Jones

Angelo State University's colony of Sigma Phi Epsilon reached chapter status December 7 as 21 men and two advisors were initiated. Jack D. Wheeler, assistant to the president of North Texas State University and a member of the national board of directors for the Fraternity, delivered the banquet address.

Wheeler presented the charter to Dr. Ollie Gauthier, vice president of Angelo State, and he in turn made the presentation to David Lenehart, chapter president. Steve Nordhoff, Governor of district 21, presented the chapter flag and installed the chapter's officers.

Officers are David Lenehart, president sophomore from Pampa, Texas; Victor Arceneaux, vice president, sophomore psychology major from Baytown, Texas; E.S. (Buddy) Johnson, controller sophomore health and physical education major from Dallas; Louie Jones, correspondent secretary journalism major from Crane, Texas; Terry Lewis, corresponding secretary freshman from Angelus, Texas; Jack Nalepka, chaplain sophomore from San Angelo; and Charlie Hall, senior marshall sophomore business major from Andrews, Texas.

Preceding the banquet, initiation ceremonies took place Saturday morning at a local church. Chapters

from the University of Texas at Arlington, West Texas State, Texas Wesleyan, and Texas Christian University provided the initiation teams. Twelve girls of the chapter's Golden Hearts organization were also recognized.

William L. Sanders and his wife were presented a plaque in memory of their son, Van Lee Sanders, a pledge who was killed in an auto accident earlier this year. Van's name will appear as the first initiate on Texas Omicron's charter.

The colony was started in February, 1974 with 10 men. Five of these men held the colony together over the summer and pledged 15 additional men during the fall. As of now, the chapter plans to add 15 or more pledges to its rolls during spring rush.

Started in 1928

Angelo State's history dates back to 1928 when it was San Angelo College, a two-year institution. In 1965, it became a four-year school and changed its name to Angelo State College and later to University. Interest and enthusiasm in the school grew until 1967, the first baccalaureate degrees were awarded. The school initiated a graduate program in 1971 and the first master's degree was granted in 1972.

The 287-acre campus has an enrollment of 4,300 full-time students. The fraternity system consists of four national fraternities and one colony.

Heading for Grad School? Consider Being a Resident Counselor

Last August, on his way to Louisiana State University, Bob Baumann was a little apprehensive about executing the responsibilities that faced him. Bob, 24, a graduate student at Louisiana State and past president of the Sig Ep chapter at the University of Rhode Island (Rhode Island Beta), was reporting in as Louisiana's Resident counselor.

He is one of several Sig Eps who, while attending graduate school, lives and works with a Sig Ep chapter which has organizational problems. The scholarship offers free room and board at the chapter (where applicable) and as agreed upon with the chapter, room and board, and a stipend scaled to tuition expenses from Headquarters.

Before going into the chapter each Resident Counselor assigned by Headquarters is thoroughly briefed on the chapter's history and current status, and has a good knowledge of those areas needing improvement.

Of his first semester at Louisiana State University, Bob said: "The first couple of weeks are hectic as you must get used to the new surroundings and lay down the

foundations of what you will accomplish. Ideally, the resident counselor should have nothing left to do by the end of the academic year," he said.

Louisiana Beta, since Bob moved in last August, has become a success story, with improvement in practically every area of operation.

Roger H. VanHooser (Washington '72), who received his M.S. from the University of Southern California in December, and served as resident counselor to California Beta, said, "One of the first things you have to do is to help the chapter and its leadership establish a direction. Next, I said help them establish a direction. That doesn't mean imposing your direction on the chapter."

VanHooser and Baumann agree that a sound chapter background is vital to a brother working as a resident counselor. Said VanHooser, "You have to relate what worked at your chapter and determine whether it will be useful to now. But, VanHooser cautions, "Most Counselors come from chapters with histories of doing things well—it's easy to overlook the little details that in sound chapters seem to take

care of themselves." Good counseling requires goals, priorities, and a sense of direction.

The ability to work with people is primary to a resident counselor's effectiveness. "The first of many goals," said Baumann, "is to gain the chapter's respect. This, of course, does not mean a power struggle; you have to show that you can take on responsibilities and can handle people and situations with ease and tact." However, a counselor does not try to do everything himself.

"I have never seen a chapter more committed to improving than our chapter," VanHooser points out. He suggests part of the job is to recruit alumni in different professions to be advisors for each major area of chapter operation. "The resident counselor will move on, but the alumni will stay and provide the type of support that should have been there before you arrived," he said.

The challenge of being a resident counselor is great and offers personal reward in exchange.

"I am again able to enjoy the benefits of fraternal living that I discovered at Rhode Island Beta."

Baumann said he hopes to stay on another year.

Other resident counselors personifies brotherhood in action," added VanHooser, who quotes Thomas Carlyle: "We all need someone who will make us do what we are capable of doing."

Graduating seniors—Sig Ep members—help in assisting chapters do what they are capable of doing. Please contact Headquarters if you plan on attending graduate school and would like to serve as a resident counselor.

Resident Counselors positions for 1975-76 are open at the following universities:

The 18 finalists in the year's second annual Golden Heart of Sigma Phi Epsilon competition, sponsored by the National Golden Hearts Association, represent 18 of the Fraternity's 25 districts. There are three "at large" candidates representing districts which have no government.

Each of Sigma Phi Epsilon's 206 chapters and colonies were eligible to send their District Governor a nominee representing their chapter. A panel of judges in each district selected a Superior from all nominees and could represent the district in the National final.

The district sweethearts were chosen on the basis of involvement in campus and fraternity activities and photogenic qualities. The winner will be determined by undergraduate votes taken during a balloting which ended Feb. 7, 1975. The 1975 Golden Heart of Sigma Phi Epsilon will be presented at the Regional Leadership Weekend in her area as well as being featured in the Spring issue (May) of the JOURNAL. She will also be interviewed at the 75th Anniversary Grand Chapter, August 22-25 in St. Louis.

Spring-Summer Rush Starts Now!

Are you growing? Good membership recruitment results are vital to your chapter's health and welfare. You can grow and achieve despite the quality of your chapter without advance planning and organization. Planning and organization for membership recruitment has now become a year-round program. Membership recruitment does not begin in the fall and end in early spring, but should be a 365-day-a-year program.

When does the year's membership recruitment program begin? For most chapters, membership recruitment begins in the summer and the summer begins in March, say J. Tim Biggs, Director of Manpower Development, Director of Headquarters. In earlier the start, the more advantage you have over competing chapters and the more time you have for accomplishing your goals. Biggs believes. But the significant reason for spring and summer rush contact is that it can be rush in its true sense. Why? First, the member needs to find qualified people to help him in his efforts to provide factual information about the Fraternity. Second, without the worry of scheduling classes and meeting in making arrangements, the member can evaluate more maturely the role a fraternity would

have in his college experience. Spring and summer recruitment can be divided into three major areas:

1 Securing the maximum number of new members.

2 Contacting rushers.

3 Effective follow-up.

Personal contact begins the natural selection process. The most effective way of contacting rushers is by calling them, making appointments and then visiting their homes. Get a definite commitment from the man you want to talk with him again about SigEp. Remember, you make the first move and effort to become friends.

The following is a Spring-Summer Membership Recruitment Checklist:

March. Appoint rush chairman and select a rush committee to: (a) Review last year's program; (b) Review rush budget; (c) Consult IFC for their plans; (d) Draft a proposed program; Hold a chapter rush clinic to: (e) Establish your chapter's main goals; (f) Present proposed program; (g) Draft your chapter's membership recruitment program and give each brother a copy.

April. Contact high school seniors. Hold a Senior Day at the

chapter house, or lodge or on campus.

May. Mail alumni recommendation cards. Assign rushes to rush teams from the chapter. Freshman Mailing (Headquarters Service) Freshman mailing Headquarters Service. Finance summer rush expenses, pass all our members' addresses and phone numbers.

June-August. Reassign additional rushers to teams. Hold regular parties, activities, rush week.

September. Catch-up rush period to meet immediate membership goals. Follow-up on definite pledge prospects.

And finally what about alumni support? As brothers they can and must help in chapter membership recruitment. Through the initial planning phases, though, follow-up rush. With an average three years of chapter operation experience and varying years of business experience, alumni can be instrumental in helping to organize or sponsor events and their families and friends can be community make them ideal resources for personal contact assignments. Ask them!

Tennessee District Day Great Success

By John Denhart

The University of Tennessee campus was buzzing about it all day. "Where did all the Sig Eps come from?" asked one Greek. "Look at all the Alumni," said another. And the rest of the university wondered what took place. Let's check it out.

On Saturday, November 16, Sigma Phi Epsilon was the only fraternity on campus, as more than 200 brothers, pledges, and Golden Hearts from six chapters around the state gathered at the University of Tennessee to participate in the first District Sports Day for District 13.

The other Sig Ep chapters in attendance were Memphis State University (Tennessee Beta); East Tennessee State University (Tennessee Gamma); Tennessee Wesleyan (Tennessee Delta); Tennessee Technological University (Tennessee Epsilon); and Lambuth College (Tennessee Zeta).

The chapters competed in flag football, tug-of-war, ping-pong, pocket billiards, three-legged and sack-racing, and egg-tossing. Trophies were awarded for first place in every sport, with first, second, and third place trophies given to the winners and another trophy for the outstanding participant of the day.

Chapter News

For the 25th consecutive year we wrote the best letter to Santa our annual Christmas Party for some church nursery school children was very successful and rewarding. Plans for the faculty golf tournament were completed and money for Muscular Dystrophy are now underway.

The brothers have maintained their interest in the local community by continuing to do well and we stand third overall out of 28 fraternal. We're looking forward to the Spring Fund Drive.

Our enthusiastic pledges were initiated November 24. Preparation for the spring fund drive is well under way and we are anticipating a successful campaign.

Alumni Day was a good turnout for the 1975 edition. We had a great time.

Our houseparent, Oleg (Mon) Bentley is back for his 18th year. Mon is in his second year as houseparent and we are grateful he has been unable to come in the last couple of years returned to add their support the Building Fund. We would like to thank all those who made this day a big success.

— Jeff Keeling

University of North Carolina-Chapel Hill

We initiated eight brothers on December 7 and celebrated that with a banquet. We swore in new officers announced Golden Heart, the new Sweethearts, and our Outstanding Brother and Friend awards.

Alumni in our area are really showing interest in our chapter and beginning to contribute to our chapter's efforts. We have over 400 hours pledged to our chapter.

In addition N.C. Nu came up on the shortlist of our top 10 fraternities in the country. A basketball squad that is sure to finish near the top of the standings. We take pride in the individuality of our brothers. Our brothers swear off the basketball and tennis teams, a crew of the basement and labor tennis crew, individual and team in each division was captured in our Fall Photo.

Our outstanding work project for the semester initiated on November 10. This year the new officers, Brothers Dan Trammell and Ken Meyers (alumni) served as hosts to area theaters during their showings of "The Wonders of Life" and "The Story of the American International Enterprise," Inc.

Special congratulations are in order to our new presidents, Outgoing Brother Travis Mangum and Outstanding Pledge Jack Price. Golden Heart winners Barbara Minchik and Barbara Phillips Mikson.

— James W. Squires, Jr.

OHIO Bowling Green

After achieving the goals of superiority in intramurals, great events, and great spirit, our brothers and sisters are setting new goals—community service and scholarship—to complement our academic success.

During the Christmas season, Ohio Nu participated in a collection of canned goods, peanut butter, dried fruits, and canned goods, etc., for needy families and went caroling at a nursing home. Our chapter opened its doors to the community and invited them to come to us to initiate some course of action.

The brothers of Ohio Nu are proud of their work in the community. We have given a great deal of money we have raised to the local Easter Seal Chapter in Youngstown. Last year we collected \$1,000.00 for the Easter Seals. Fundraising events held on campus are selling coffee to the students, the purchase of All-Ohio shirts, and the sale of tickets to the basketball games. Funds will go directly to the Youngstown Chapter of the Easter Seal.

— Mike Dorell

After initiating three fine young men, The Big Eps have achieved a high grade point average among the freshmen on campus the last four years.

Recently the brothers diverted some of their energy into worthwhile and educational projects. One of these projects is the annual Christmas Toy Drive. Other projects in the near future include Christmas caroling at a nursing home, and a trip to the hospital.

Our houseparent, Oleg (Mon) Bentley is back for his 18th year. Mon is in his second year as houseparent and we are grateful he has been unable to come in the last couple of years returned to add their support the Building Fund. We would like to thank all those who made this day a big success.

— Jeff Keeling

Ohio Wesleyan University

Ohio Epson maintained its standing as the number one fraternity on Ohio Wesleyan.

Our pledge class numbered 26, highest total on campus. Congratulations to Dick Fowler (pledge) and his chapter for their spectacular achievement.

Intramural teams performed admirably. Our volleyball team finished first in the division, winning a divisional playoff, 14-0, and routing our opposition in the final 20-3. The volleyball team also won the intramural basketball championship, by decisively defeating the champion of the other division. Thus Sigma Phi Epson was the overall intramural champion.

The chapter continued its long-term standing as one of the most scholarly on campus, as our grade point average was at the top of the fraternity.

We look forward to our Heart Fund project this winter and expect to receive national recognition for our dollar-for-dollar contribution to this worthy cause.

— Gary Bergman

Youngstown State

On the Youngstown State University campus the brothers of Ohio Nu are considered by our people to be the most outstanding. Every brother likes to share their enthusiasm on their perspective campuses. However we were assured of this position by a natural survey of the students. The brothers of Ohio Nu are one in S.U. for the third straight year. We rate our membership with 43 active brothers while other fraternities have 20 to 30 brothers and have 20 to less.

The brothers of Ohio Nu have gathered a group of representatives from the heteronyms and sororities to review and evaluate our program to improve the Greek Rush system at Y.S.U. and to help us to initiate some changes to help us to initiate some course of action.

The brothers of Ohio Nu are proud of their work in the community. We have given a great deal of money we have raised to the local Easter Seal Chapter in Youngstown. Last year we collected \$1,000.00 for the Easter Seals. Fundraising events held on campus are selling coffee to the students, the purchase of All-Ohio shirts, and the sale of tickets to the basketball games. Funds will go directly to the Youngstown Chapter of the Easter Seal.

Richard B. King

From Engineer to Stock Broker

Sig Ep's Richard B. King, University of Michigan (Michigan Alpha) '48, a member of the Educational Foundation's Board of Trustees, recently became Vice President of Investment Banking at New York headquarters. A year later, he was named Executive Vice President of Standard New York.

While King pursued his interest in engineering, and with the coming of World War II spent four years as an Ensign in the Navy he found that he was "not very happy as an aeronautical engineer." He then decided to attend Harvard Business School and in 1950 received his M.B.S.

The stock market intrigued King and through the inspiration of his father, a partner in a brokerage firm, King became an account executive in 1951 and from that position his progression in the brokerage firm was steady but rapid. From 1953 to 1955 he was assistant to the managing partner in New York headquarters before returning to his hometown, Detroit. There he was made Institutional Account Executive and later manager of the Detroit office. In 1959 King was elected a voting stockholder and made vice president of the corporation. He was elected to the company's board of directors in 1965, and in 1969 was named Group

Vice President of Investment Banking at in New York headquarters. A year later, he was named Executive Vice President of Standard New York.

How does he account for his rapid progression? In a recent interview, King said: "Part of this job is to see that management knows what's going on, why, and what needs to be done. And since people make or break a company, part of the job is to work through people, and also to get people to accept the need for

Richard King

tightly controls." That philosophy seems to have paid off for Brother Dick King.

DUBACH FUNDS AWARDED

Six students at Oregon State University have received scholarships from the Sigma Phi Epsilon Educational Foundation. Checks of \$120 each have been awarded to Douglas J. Antone, Craig W. Beck, John R. Eggers, Kenneth S. Maddox, Robert C. Skyrer, and Timothy E. Thompson, all members of the Sigma Phi Epsilon chapter at Oregon State.

Scholarships are awarded quarterly from a fund set up within the Sigma Phi Epsilon Foundation by Dubach to benefit members of the Oregon State chapter, and are granted on the basis of character scholarship, leadership, and need.

Fort Worth Attorney

Elton Hyder—An Uncommon Man

by Ralph L. Sellmeyer, Editor

You'd have to say that Elton M. Hyder Jr. is not a common man. At just past 50, he's been away from his law office for 10 years, while he specialized in oil litigation for more than 20 years. He now spends his time managing investments and family holding corporations, serving on the boards of banks and savings and loans, institutions, while simultaneously establishing and operating two foundations he has set up. In addition to all of this he works with universities and boards of which he is a member. One of those boards is a member of the Sigma Phi Epsilon Educational Foundation of which he is a trustee.

This Fort Worth executive, one of the founders of the Sigma Phi Epsilon chapter at Texas Christian University in Fort Worth "started off with nothing," but his talents to work hard and his persistence at the University of Texas in 1940 and graduating in 1943. He worked his way through college, became a member of Sig Ep and subsequently president and a member of the International Board of Directors. He was also a member of Pi Delta Phi law fraternity and had other activities. He later did graduate work at Harvard Law School.

After a brief year (as a senior in the Law School) with an Austin, Texas, law firm Hyder entered the U.S. Army as Ensign D-4 (G) and served abroad in Europe and Asia until 1944. He was inactivated because of malaria and thereupon appointed assistant Attorney General of Texas and in 1945 was appointed assistant counsel for the United States and participated in the prosecution of Japanese war criminals in Tokyo, including General Hideki Tojo and members of his cabinet. Hyder was the youngest special prosecutor at that trial.

He is a member of the Bar of the United States Supreme Court and the Supreme Court of Texas as well as other bar groups. He is a member of the Board of Directors of the Texas Law Review, of the Law School of the University of Texas and thus far graduated enough to be honored as an Outstanding Alumnus by the Law School of The University of Texas at Austin.

This uncommon Sig Ep is one of several lifetime members of the board of trustees of the University of Texas Law School Foundation, former member of the Board of Development of Texas Christian

University, a former member of the Board, Fort Worth Country Day School, a former board member of the Fort Worth Symphony Orchestra, a member of the board of directors of the Continental National Bank of Fort Worth, and founder, director, and, for many years, chairman of the board of Western Savings and Loan Association of Fort Worth.

Brother Hyder has an abiding interest in young people. At times, he has helped to raise 10 and 12 students in college on scholarships which I fund, including some minority youngsters, he said actually "all are minority when they need help."

Elton Hyder

He has a daughter at Duke University a senior in arts and science, and a son Brent who graduated this year with a BA degree from The University of Texas at Austin. Another son Elton, something of a BA, plans to go to law school and is currently in his Men's City Singles Tennis Champion of Fort Worth.

I glad I can send my children to college and help other youngsters attend. I want them to enjoy life and do something substantial for others. I would like my children to go to school in England for a year.

Brother Hyder's wife Martha Rowan Hyder was born in Fort Worth and attended Sweet Briar College, Somers, Virginia, for two years before graduating from The University of Texas at Austin where she was a member of Pi Beta Phi social sorority.

Mr. Hyder has been involved in projects for and on the boards of the Junior League, Planned Parenthood, Crippled Childrens

Association, Art museum where she also lectured to fifth and sixth grades and high school students in art, music, and public schools, Opera Board, Symphony Board and her main interest now, however, as chairman of the Van Cliburn International Quadrangular Piano Competition for the next four years.

How does this most successful Sig Ep feel about the fraternity?

"I think belonging and working in the Sigma Phi Epsilon Foundation does better in the world; it helps you develop leadership and teaches you to get along with men at the college level. Looking back, it meant hell of a lot to me."

Hyder is making a comeback, and I'm so glad they are. They have a most useful purpose in college and they supplement college by personal relations and business development. I have always loved our fraternity. One of its greatest strengths is its institution as a trustee of the Sig Ep Foundation. He intends to build it.

Hyder's two sons are fraternity members though not Sig Ep.

"I didn't try to influence them—they went into different fraternities. I'm just glad they went into a Fraternity. I was initiated as a Delta Tau Delta member at Duke University and Elton as a Beta Theta Phi at the University of North Carolina Chapel Hill.

Yes an uncommon man. Elton M. Hyder, Jr., a member of Sigma Phi Epsilon to proud to have in his ranks. A man young Sig Ep's today can call will look to for a pattern for their own lives.

Many Chapters Have Scholarship Funds

Major contributors of \$500 or more to the Sigma Phi Epsilon Educational Foundation received a Scholastic Achievement Trophy in the form of a certificate encased in lucite signed by Foundation President Edward Zollinger. The illuminated certificate reads "Sigma Phi Epsilon Educational Foundation presents its Scroll of Appreciation to Brother [recipient's name] for his continuing support of the Foundation in its objectives and programs."

For Him Death Holds No Fear: Faith in God Sustains Him

Editor's Note:
This is a story of Brother Bob Nottingham's extraordinary personal experiences as told to Brother Bob Cantin in a lengthy interview. THE JOURNAL takes no position on the validity of his claims. His story is told as he told it and his soliloquy should not be interpreted as such. The principles upon which Sigma Phi Epsilon was founded are Christian, and they are principles revered by Christians and non-Christians alike. The appropriate allusions of Brothers Cantin and Nottingham in telling this story to all brothers through the JOURNAL.

Brother Robert J. Nottingham is 34, graduated in 1962 from Lewis and Clark College, a happy husband and proud father, successful businessman, avid hunter and outdoorsman and a Christian whose words and songs about his faith are being given directly to him by God.

Nottingham is also a dying man,

sick for years now ago to a deadly form of leukemia — multiple myeloma — which is gnawing

corrosively at his 6-foot-1 bone

structure.

The disease is considered always fatal. Only 22 percent of patients survive one year; only 10 percent survive 10 years. Myeloma usually strikes after the age of 50.

Fighting every day for his life, Nottingham is convinced he is being used as an apostle for God. And at the conclusion of the three-hour interview with THE JOURNAL, Sig Ep Journal during which he related his life story, this writer came away deeply touched and convinced that Nottingham has had divine encounters with his Creator. It didn't just happen when he faced

"I have always felt very close to Him in the forests or while fishing rivers and streams. All throughout my life, I've been extremely fortunate in having walked with Christ."

And when you hear Nottingham talk about his walk and hear his tragic start in life, you begin to believe there is a divine power watching out for him.

A lot happened before I really knew what was occurring when I began. It left its effect on me in looking back. I could have done so much more if I had not outside help — an outside source guiding me.

After high school came college. Studies, athletics and the fraternity for Brother Nottingham.

Today my most treasured memories are centered right around the fraternity.

Brother said that although it was not really overt, Christianity was present, subconscious in the fraternity as he recalls it.

That's what I was looking for so

Alaskan Pipeline — Largest Project Undertaken

In September, Alaska will underway on the "80-mile train," Alaska pipeline, with the first leg completed in time for the map 1973.

The \$4.2 billion project, being built to supply nearly 100 oil companies in the North Slope of Alaska, is the largest oilfield venture undertaken in the United States.

Right now, the major engineering and construction work is under way on the first leg of the pipeline, stretching from Prudhoe Bay to Valdez.

When completed, the pipeline will be able to move 1.5 million barrels of crude oil daily from the North Slope to the Gulf of Alaska.

It will be the largest single oilfield

development ever undertaken in the United States.

Construction of the first leg

is expected to be completed in

September, 1973.

Construction of the second leg

is expected to be completed in

September, 1974.

Construction of the third leg

is expected to be completed in

September, 1975.

Construction of the fourth leg

is expected to be completed in

September, 1976.

Construction of the fifth leg

is expected to be completed in

September, 1977.

Construction of the sixth leg

is expected to be completed in

September, 1978.

Construction of the seventh leg

is expected to be completed in

September, 1979.

Construction of the eighth leg

is expected to be completed in

September, 1980.

Construction of the ninth leg

is expected to be completed in

September, 1981.

Construction of the tenth leg

is expected to be completed in

September, 1982.

Construction of the eleventh leg

is expected to be completed in

September, 1983.

Construction of the twelfth leg

is expected to be completed in

September, 1984.

Construction of the thirteenth leg

Careers...

(from page 4)

These not only demonstrate writing skills, but also common courtesy. Follow-up letters in particular convey interest in an organization while displaying the right touch of courtesy. It's your turn. A person's personal power. Wouldn't you appreciate a little courtesy and possibly give extra consideration to the candidate involved? If grades, activities, work experience etc. are equal then the guy who does these little extras might very well be the one who gets the offer.

The First Step

Too frequently people procrastinate for any one of a thousand reasons. This is not one of the possible reasons. You're a professional and aggressive job candidate.

The underclassman should begin immediately to look into the topics mentioned earlier and become involved. Utilizing the many career services available on campus is an important first step. The Career Planning Office, the Counseling Center, the Advising Office, the Testing Center, and the Office of Student Employment could be starting points for the underclassman.

The senior should make a point of utilizing these same services while also visiting his Placement Office. Frequent visits to the Placement Office can help you as you research companies and positions. On-campus visits can also be spent in talking with a placement office knowing you personally and being familiar with your goals can help him direct you in your job search while also assisting him in making referrals to employers. Use your Placement Office. They're there to help you in your search for employment. Get started today!

Sigma Phi Epsilon LIFE INSURANCE TRUST Offers You **\$10,000** of Life Insurance for only \$5.55 Quarterly.*

If You're not Already One of the Many Brothers Enrolled in the Plan, Now is Your Opportunity to Add to Your Life Estate at a Fraction of the Cost of Comparable Coverage on an Individual Basis.

CHECK THESE OUTSTANDING FEATURES

- Low Group Rates**—By offering this coverage on a group basis the Fraternity has obtained an outstanding plan at lower rates than could be obtained on an individual basis.
- For All Members Under Age 30**—You can purchase \$10,000 of group insurance for just \$5.55 quarterly. Renewable to age 70. Members age 30 and older may also enroll for coverage; quarterly rates will be based upon the age of the member.
- Return of Premium Provision**—In the event of death, your beneficiary will receive the benefit amount PLUS all premiums paid into the plan.
- Disability Benefit**—If you become totally disabled before your 60th birthday, for 6 consecutive months, your policy will be kept in force without further cost for as long as you continue to be totally disabled.
- Exchange Privilege**—Prior to age 65 you may convert your coverage to any individual policy issued by the Sentry Life Insurance Company for other than term insurance.

IMPORTANT QUESTIONS AND ANSWERS

- Q. What is the need for the Fraternity's Life Insurance Program?
A. Most members already have some form of life insurance. However because of rising costs and increased responsibilities, members must add to their life estate to keep abreast of these changes. This plan is intended to offer members an excellent supplement to meet these needs—at a low group rate.
- Q. When will my coverage become effective?
A. After you have submitted your enrollment form, your coverage will become effective upon attainment of the Sentry Life Insurance Company's approval and when your quarterly premium is paid.
- Q. How do I pay my premium?
A. When your coverage is approved, you will receive your Certificate of Coverage and your first quarterly premium bill.
- Q. Who is eligible for coverage?
A. All members of the Fraternity up to age 70 are eligible to enroll for insurance under the program. Members over age 30 should complete the top portion of the enrollment form. A special enrollment form giving the appropriate rates for your age will be mailed to you.
- Q. What are the exclusions under the plan?
A. The only exclusion is suicide during the first two years.
- Q. Can my coverage be cancelled?
A. Your coverage cannot be cancelled unless you fail to pay your premium when due, until you reach age 70 or the master policy is terminated.

BECOME A FOUNDATION FOUNDER

Many members may wish to make the Sigma Phi Epsilon Education Foundation either a full or partial beneficiary. On the enrollment form there is space where you may designate the Fraternity's Educational Foundation any amount of your insured coverage (minimum \$100).

HOW TO ENROLL

Members Under Age 30

- 1 Complete and mail the enrollment card.
- 2 Do not send any money you will be billed upon receipt of your certificate of coverage.

Members Age 30 and Over

- 1 Complete the top portion of the enrollment card giving only your name and address.
- 2 You will be mailed a separate enrollment card indicating the quarterly rates for members age 30 and older.
